Portfolio
São Paulo, Brazil

Localisation and audiovisual professional with **10+ years in translation and localisation** and hands-on experience supporting content production from briefing and source preparation through linguistic review, quality checks and final delivery. Experienced in coordinating editorial workflows, assigning and tracking work, clarifying requirements, following up on deadlines, managing revision cycles and maintaining project documentation across cross-functional teams. Combines practical subtitling and localisation QA expertise with large-scale content operations, strong written English, attention to detail and a proactive, collaborative approach to resolving issues and adapting to changing requirements.

ENTERPRISE CONTENT ASSETS MIGRATED	CALL-CENTRE AGENTS SUPPORTED BY CONTENT	CONTROLLED-VOCABULARY TERMS	YEARS IN TRANSLATION & LOCALISATION

CORE COMPETENCIES

Project & Production Coordination

- Project intake, briefing and requirements clarification
- Work assignment and contributor coordination
- Schedule, deadline and deliverable tracking
- Priority changes, issue follow-up and escalation
- Cross-functional and stakeholder communication
- Project records and workflow documentation

Localisation & Audiovisual

- Translation and localisation workflows
- Subtitle preparation, review and QC
- CAT tools and subtitle authoring software
- Source/reference file preparation
- On-screen text identification and translation
- Final file validation and delivery

Quality & Content Operations

- Linguistic and formatting QA
- Client guidelines and style-guide compliance
- Terminology and consistency checks
- Revision cycles and approval workflows
- Editorial standards and quality checklists
- Microsoft Excel and structured tracking

PROFESSIONAL EXPERIENCE

Content Governance & Linguistic QA Lead

2020–Present

TeamWorker · Major Telecommunications Client (Claro)

- Coordinate end-to-end editorial production workflows: receive briefs from Marketing, Process, Commercial and Operations; clarify scope and requirements; set deadlines; assign work to writers; track progress; and follow up on delays, questions and changing priorities.
- Maintain an Excel-based production tracker with owners, dates and status information used to monitor work and support weekly/monthly reporting.
- Manage editorial review cycles: check content against requirements, terminology, structure and formatting; provide actionable feedback; return items for revision when needed; and approve content for the next stage only when it meets standards.
- Coordinate with 15+ writers/editors and cross-functional stakeholders, resolving brief inconsistencies and dependencies before publication.
- Supported migration and restructuring of **15,000+ enterprise knowledge assets** into Salesforce Knowledge, aligning editorial workflows, publication requirements and content standards.
- Created style guides, quality checklists, formatting rules, workflow documentation and a controlled vocabulary of **2,700+ terms**; developed guided decision-tree content used by workflows supporting **30,000+ call-centre agents**.

Localisation QA & Language Quality Specialist

2015–Present

International Clients & Language Service Providers · Remote

- Perform linguistic QA and translation review for technology and media content, including software interfaces, documentation, subtitles and other user-facing materials.
- Check localised deliverables against source material, terminology, style guides and client-specific quality requirements; identify accuracy, fluency, formatting, consistency and locale issues.
- Carry out translation review and MTPE, document issues and edge cases, clarify requirements with localisation teams, and support consistent quality decisions before delivery.
- Deliver translation, localisation, subtitling, transcription, subtitle review and linguistic/technical QC, primarily English to Brazilian Portuguese, for international media and language-service workflows.
- Prepare source materials and subtitle files, research terminology, apply client-specific guidelines, validate formatting and technical requirements, and deliver complete files to specification.
- Review audiovisual material for timing, segmentation, reading speed, line breaks, punctuation, terminology, speaker identification and consistency; produce SDH/CC captions where required.
- Manage concurrent assignments and deadlines, communicate with project managers and language professionals, and adapt to changing instructions and delivery requirements.
- Use Subtitle Edit and CAT/QA tools to support subtitle preparation, amendments, quality checks and final delivery.

Audiovisual Translation & On-screen Text Review

Sep 2026–Present

OneVoice · Freelance Project

- Translate video content from Brazilian Portuguese into English and prepare explanatory notes for references, speakers, quotations and context relevant to the translation.
- Identify on-screen text throughout the video, including graphics, headlines, livestream comments, posters, logos and other visible text, so relevant material is documented for localisation.
- Follow project-specific instructions and deliver structured, detailed work within a recurring production schedule.

SELECTED PROJECT EXPERIENCE

Content Production Coordination at Scale

Brief intake → requirements clarification → assignment → deadline tracking → editorial review → revision → approval/publication. Built and maintained standards and tracking workflows across a large enterprise knowledge environment.

Audiovisual Localisation & Accessibility

Subtitling, translation, review, SDH/CC, timing, formatting and final QC for films, series, documentaries and digital video. Selected credits include work associated with the **John Wick** franchise, **Bridget Jones**, **Record of Ragnarok** and **I Need Romance**; additional projects are confidential.

Subtitle Workflow & Structured Data

Developed a portfolio project exploring **Python-assisted handling of subtitle metadata** and structured information to support a more organised subtitle workflow. Demonstration available through the portfolio.
